

## BQE Scares Up a Brand New Score

# FRANKENSTEIN

(1931)

Once again, the BQE Project returns to the silver screen with a brand new score to a timeless 1931 classic - James Whale's "Frankenstein" featuring Boris Karloff. The "monster," created by Dr. Frankenstein, comes to life with haunting and powerful music composed by BQE's musical director, Tom Nazziola. As in past productions, the new score will use a variety of instrumental colorings to enhance the black and white original print. Images will jump from the screen as they move to the dramatic and forceful sound of the BQE Project. A sinister, yet fun experience in the marriage of live music and vintage celluloid.

**“The BQE Project’s accompaniment to Frankenstein was a superb finale to the Williamstown Film Festival season.”**

- Steve Lawson Executive Director, Williamstown Film Festival

# Technical Information

**Available Formats:** DVD, 16mm

**Film Length:** 71 minutes
